You will benefit from 100% of any dividends paid from 2027.

You do not benefit from any dividends paid in 2026 for 2025.

These will be reinvested into the fund and converted into fund units (thus increasing the number of units you own), which will be available on the expiry date of the investment to which they are linked.

Your investment is subject to a risk of loss of capital.

By subscribing in a country outside the euro zone, the value of your investment will be subject to the fluctuations of the exchange rate of the euro against your local currency.

Given the concentration of risk associated with this Employee Shareholding Fund investing in the shares of only one company, the “Autorité des Marchés Financiers” (“AMF” – French financial markets regulator) recommends that subscribers evaluate the need for risk diversification of their overall financial investments. Please consult the Employee Shareholding Fund rules for more information about the risks associated with the fund.

RISK OF LIQUIDITY

In the particular case where the exchange volumes on the financial markets are small, any purchase or sale transaction may lead to significant market fluctuations. Please consult the concerned Employee Shareholding Fund rules for further information on these risks.
